

Features we initially want to include:

- The ability to add assignments through a form
- The ability to give students' grades back
- Student should be able to ask for a remark
- Instructor should be able to change grade for a remark
- The ability to store login information for users
- The ability to give feedback to the course instructors
- The ability to sign up as a user

Features we completed:

- The ability for a student to ask for a regrade
- The ability to sign up as an instructor
- The ability to sign up as a student
- The ability to sign in as an instructor
- The ability to sign in as a student
- Only instructors can see all grades
- Students can only see their own grades
- The ability to store user info in database
- The ability to differentiate bad login credentials from valid ones
- Only students are allowed to submit feedback
- Only instructors are allowed to see students' feedback
- The ability to store feedback in database
- Only students are allowed to submit a regrade request
- Only instructors are allowed to regrade a student's work
- Ability for a user to logout

Features we could not complete:

- The ability to add assignments through a form

Features worked on by which members:

Feature	Yuehai	Jawad	Jiazheng
CSS	33%	33%	33%
HTML	33%	33%	33%
Flask	33%	33%	33%
SQL	33%	33%	33%
Grading	90%	5%	5%
Login/Signup	5%	5%	90%
Regrade	5%	90%	5%
